Fast service

A center close to
its customers

Qualified Sicame Group
experts

6 months guarantee for
repairs

Assets traceability:
Check me

When was the last inspection/calibration of your equipment?
Has the periodic inspection been performed?

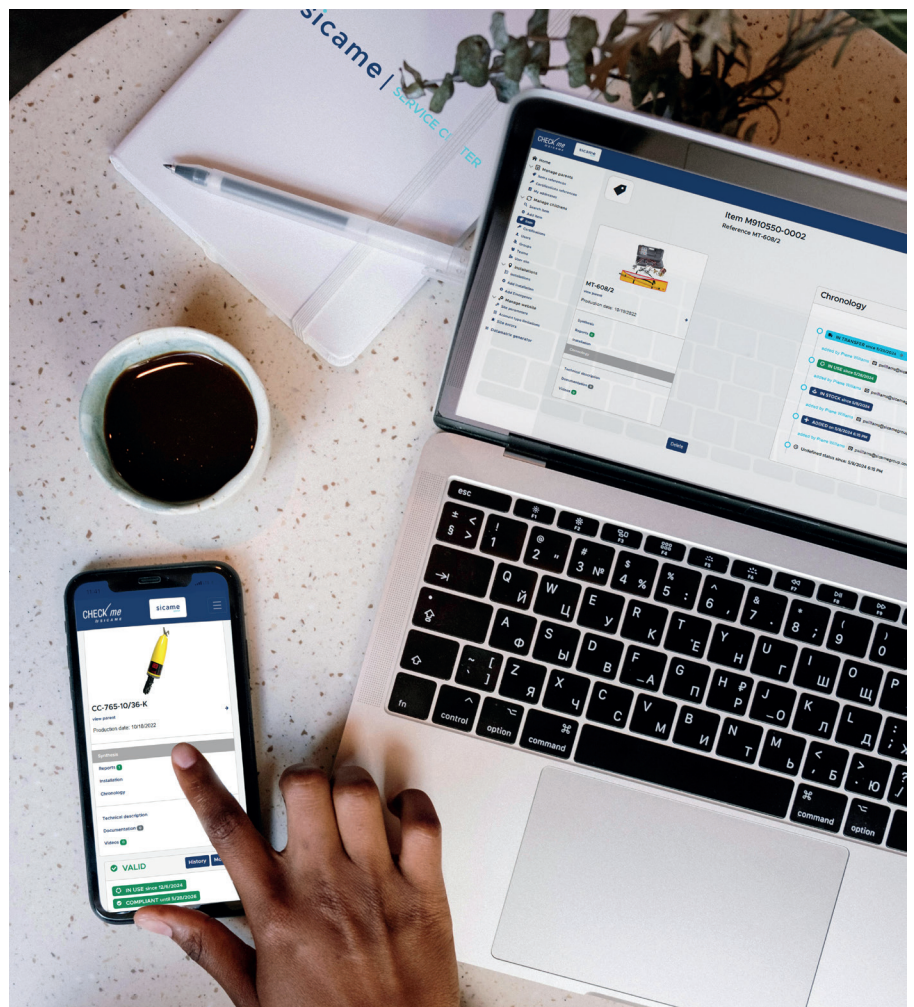

Are the certification and authorization of your workforce still valid?

What is the status of your tooling fleet and where is your equipment located?

Assets management

Check *me* is an online platform to manage your assets including PPE, toolings and equipment, as well as people:

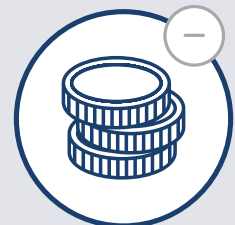

- Conformity including compliance with periodic control
- Validity of authorization and certification
- Availability
- Assignment to user/group/team/site
- Life cycle
- Events history
- Location
- Attached documents and reports
- Stock management

Check *me* supports product installation and operation

- Online access to user's manual (installation, maintenance, calibration, etc.)
- Product location
- Attached documents and reports related to any installation and operation
- Full traceability of installation and operation: what, who, when, where, how?

Reduce

Your inventory loses
