# Voltage detector for MV Substation

## CL-465

• **AUTONOMY 8 YEARS**  
• **EASY TO USE**

### DESCRIPTION

Voltage detector for indoor use. It's equipped with its built-in device for the checking operation. The indication "voltage present" is visualized on 360° by a high brightness red LED.

### CHARACTERISTICS

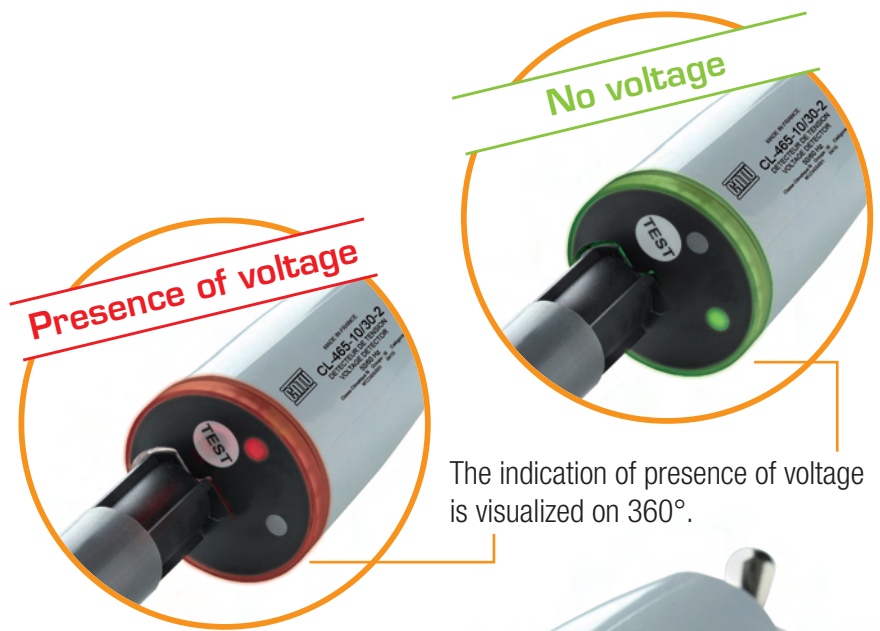

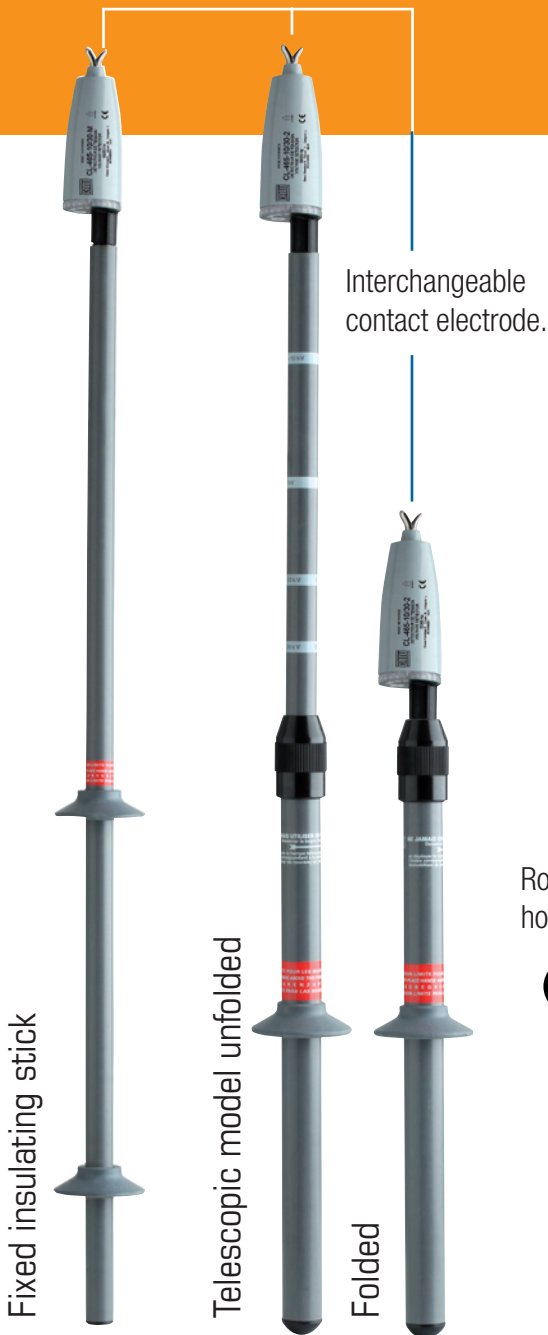

- High environmental resistance: Shocks, drop, vibration.
- Powered with a lithium battery. The battery life is more than 8 years.

Reference				
CL-465-10/30-M *	10 - 30 kV	-	1.35 m	0.9
CL-465-10/30-2 **	10 - 30 kV	0.75 m	1.18 m	0.9

\* Delivered in vinyl sheath with wall brackets CI-06-D.

\*\* Delivered in canvas, waterproofed with shoulder strap.

Other voltages are available on request

The indication of presence of voltage is visualized on 360°.

Robust thermoplastic compact housing (diameter 59 mm).
