Tournevis isolés POZIDRIV à lame décollée

Application:

- Engineered for safety, precision, and durability, our IEC Standard Insulated Pozidriv Screwdrivers are the ideal choice for professionals working on live electrical installations. Certified to the IEC 60900 standard, each screwdriver is individually tested and rated for use on systems up to 1000V AC / 1500V DC, ensuring the highest level of protection in demanding environments.

Features:

- 1000V Insulation Rating: Safe for use on live electrical equipment up to 1000V AC / 1500V DC
- IEC 60900 Certified: Compliant with international safety standards for insulated hand tools
- Recessed shaft allows the insulated tool to reach into recessed screws or terminals in electrical panels or devices.
- High-Visibility Handle: Ergonomically designed with a non-slip grip for comfort and control, even with gloves
- Durable Construction: Shaft made from hardened, chrome-vanadium steel for long-lasting performance
