

**MO-131/1**

**Masque filtrant FFP3**

**Application:**

- Single-use filtering respirator mask.
- FFP3 protection: solid and liquid toxic particles (99% filtration of aerosols of average size 0.6 µm).
- Adaptable to all morphologies thanks to the adjustable elastics and the nose clip.
- Comfortable thanks to the elastics passing behind the head.

**Features:**

- Shape: shell.
- With exhalation valve.
- Comfort foam inside the mask. Delivered by box of 5 pieces.
