

M-87... / MO-103

Storage bag

Application :

- Allows the storage of small accessories: lockout elements, small electronic devices such as the **MS-153...**, etc.
- Easy opening thanks to the zip equipped with a strap.
- Easy hanging with the carabiner.
- Possibility to hang the case on the belt thanks to the back loop.

Features :

- Inside :
 - a small red pocket on the side to store small accessories, such as the **MS-153...** test lead points ;
 - a red elastic loop to keep some accessories in place, like for example the crocodile clamps of the **MS-153...**
- At the back, a transparent pocket to store a manual.
- The front of the pouch is foamed, the back of the pouch is reinforced, thus guaranteeing a good protection of the elements stored in the pouch.
