

FIB-0-1..

Fringed insulating blanket, length 2 m width 1m

Application:

- Used to cover the ground and cable ends during underground network operations.
- Used to line a trench, to insulate walls crossed by pipes when working on underground electrical cables.
- Operating voltage: 1 000 V AC - 1 500 V DC.

Features:

- Elastomer material.
- Manufactured from IEC 61112:2009 class 0 blanket.
 - Category A: Acid resistance.
 - Category Z: Ozone-resistant.
- Halogen-free.
- Blanket with 10 cut bangs 1 m wide.
- Temperature range -25°C to +55°C.
- Dimensions: length 2 m width 1 m.
