Insulating Jointing Tools

Application :

Insulating jointing tools are essential hand tools used in the electrical and telecommunications industries for safely connecting and splicing electrical cables or conductors. These tools are designed to provide insulation and protection from electrical shock, ensuring that technicians can work on live or potentially live systems with minimal risk of injury.

Features :

- Maximum operating voltage: 1 000 V AC - 1 500 V DC.
- Various options available

Ref	Dimensions	Length (mm)	Weight (kg)
JTN-1	130 x 20 x 17	130	0.026
JTN-2	160 x 37 x 20	160	0.05
JTN-3	267 x 29 x 22	262	0.11
JTN-4	242 x 17 x 39	245	0.114
JTN-5	113 x 25 x 24	113	0.037
JTN-6	195 x 16 x 34	196	0.067
