

MO-1101.

Safety over glasses against the impact of high-speed solid particles

Application:

- Ensure the protection of the eye during operations on an electrical installation:
 - against the U.V. rays. (solar protection according to EN 170);
 - as well as projections of solid particles.

Features:

- Material: transparent polycarbonate.
- Complies with the EN 166 standard:
 - Optical class 1;
 - Impact resistance level at extreme temperatures: FT (Low impact energy at 45 m/s, at extreme temperatures -5°C to 55°C).

Composition:

- Supplied in a soft microfiber pouch.
