

MT-395.-..

Fixed points sphere Ø 25 mm. Icc 30 kA/1s

Application:

- Fixed points for connection with MALT/CC systems.
- Icc: 30 kA/1s.
- Allows the creation of clearly visible and accessible points dedicated to the installation of MALTs.

Features:

- · Material: tinned copper.
- 24 mm hexagonal base on flat surfaces.
- Threaded hole M12 or threaded rod M12, depending on the references, for fixing on support.
- They allow the MALTs to be installed at variable angles.
