Insulated Combination Pliers

Application:

- Insulated Combination Pliers are engineered for professionals who prioritize safety and performance. Certified to handle live voltages up to 1000V AC / 1500V DC, these pliers offer essential protection when working on electrical systems.

Features:

- Insulated to protect up to a maximum operating voltage: 1 000 V AC - 1 500 V DC.
- IEC 60900 Certified: Each pair of pliers are individually tested and certified to meet international standards for electrical safety.
- Orange hardened PVC insulation ensures a comfortable, non-slip grip, even with gloves.
- Precision-Machined Jaws: For strong grip and clean cuts on wires, bolts, and fasteners
- Available in various lengths to suit your needs
- Made from high-quality steel for strength and durability, with hardened cutting edges for longer-lasting performance.
