

MP-123...

Insulating Transparent Blanket Class 0: 0.5m x 0.9m

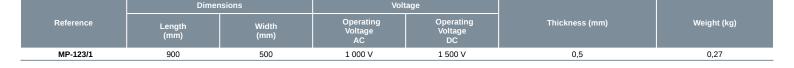

Application:

- Insulating blankets are used to insulate bare or insufficiently insulated conductive parts during live work.
- · For live working.
- Operating voltage: 1 000 V AC 1 500 V DC.

Features:

- In accordance with IEC 61112 class 0 standard and the specific properties:
 - Category A : Acid resistance.
 - Category C: Resistance to bending at very low temperature (-40°C).
 - Category H : Oil resistance.
- PVC material reinforced with composite fibers.
- Hook and Loop tape ("Velcro" type) all around the blanket for fixation or attaching to another blanket.
- Operating temperature range: -40°C to +55°C.
- · High puncture resistance.
