

KIT-18510-B..

Low voltage electrical work kit, NF C18-510 BR, BE, BC, B1 certification

Use:

- Protective kit for working on low voltage (LV) electrical installations.
- In accordance with NF C18-510 regulations and depending on the level of authorization.

Composition:

- 1 pair of insulating gloves, Wellfit finish. 500 V [CG-05-C](#) (LV version) or 1000 V [CG-10-C](#) (BR, BR/2, BC versions).
- 1 pair of cotton undergloves [CG-80-H](#).
- 1 pair of silicone-coated overgloves providing mechanical protection [CG-981-10](#).
- 1 Arc Flash protective face shield [MO-286](#) or a helmet with integrated face shield [MO-185](#) with storage bag [M-87384](#) depending on model.
- 1 voltage detector [MS-917](#), IP2X test probes, 12 - 690 V AC.
- 1 "WORKING AREA LIMIT" warning banner [AL-43](#).
- Additional products depending on model: lamp [MS-124/3](#), class 0 insulating mat (0.60 x 1 m) [MP-11/16](#), insulating sheet with Velcro, 360 x 660 mm [MP-123](#), test probes [DX-0200](#)., locking accessories [AL-20](#)., padlocks, lockout tag [AP-467](#), insulating tools [KIT-2](#)., and/or insulating accessories.
