

MP-700-

Insulating compact stepladder

Application :

- Insulating stepladders.
- For working live on low voltage installations up to 1000 V AC - 1500 V DC.

Features :

- In accordance with NF EN 50528.
- Maximum working load : 150 daN.
- Insulating stiles made of orange composite material.
- Anti slipping steps made of aluminium.
- End caps on stiles are spare parts.
- Anti pinching security hindge joint.
- Anti fall cross-beam equipped with a tool holder.
- Enlarged base for more stability.

Reference	Extended length (mm)	Voltage	
		Operating Voltage AC	Operating Voltage DC
MP7005	2 150	1 000 V	1 500 V
